

Abhiraj Sagar

Unity Game Developer with 2+ year of experience shipping polished gaming experiences to mobile, desktop and web. Skilled in C#, gameplay systems, in-engine tooling, and SDK integration.

Work Experience

Frolic Frog Studios

Feb 2025 - Present

- Implemented a scriptable object based framework to create level data that can be modified easily with a custom level editor instead of manually coding every level.
- Implemented end-to-end gameplay systems and logic from conceptualization to gameplay.
- Polished gameplay for the best possible experience.

Fitcraft.in

Apr 2024 - Nov 2024

- Handled end-to-end development of a hybrid-casual math puzzle game from conceptualization, design, architecture, implementation and improved retention by strategic level design

Educational Background

Bachelor of Computer Applications

RBMI Group of Institutions

Sep 2024 - Present
